Becoming a sponsor

The Organizing Committee is planning an exciting and in-depth conference exploring new frontiers of cucurbits research and development, such as: Breeding, Genetics, and Genetic Resources; Genomics and Biotechnology; Growth, Development and Physiology; Fruit Quality; Post-Harvest and Processing; Evolution and Ethnobotany; Interactions with the Environment and Abiotic Stresses; Biotic Stresses - Pathology and Entomology; Crop Production.

The goal of the Eucarpia Cucurbitaceae 2016 is to bring together colleagues working with cucurbit crops to share information on every aspect of the up-to-date cucurbit research, development, and production. The last Eucarpia Cucurbitaceae Conference was attended by more than 250 specialists.

We are currently seeking sponsors for the Eucarpia Cucurbitaceae 2016. This is a key opportunity to position your name in front of national and international scholars, extension personnel, producers, and industry representatives.
