Description:

The Institute of Horticulture is looking for a candidate for the assistant position at the Apiculture Division in Puławy. It will be the candidate's responsibility to: (1) plan, establish and conduct research of various bee species biology aspects, (2) interpret results and prepare reports on conducted research works, (3) write publications for recognised journals, as well as participate in conferences, particularly in international ones, (4) apply for research projects, (5) display popular-science activity.

REQUIREMENTS:

1. The candidate should have a master's degree in the field of life sciences in the discipline of biological sciences (in accordance with: art. 114 Dz.U. 2005 no. 164 poz. 1365 with changes).
2. The candidate is required to have interdisciplinary knowledge about the breeding and biology of various bee species and about current research directions in this field.
3. The candidate should have the qualifications and skills enabling to conduct independent research on various aspects of bee biology and the implementation of the Apiculture Division research objectives.
4. The candidate must have experience in conducting laboratory and field research, as well as scientific achievements in the field of the life and agricultural sciences supported by published manuscripts.
5. The candidate should also have documented activity in applying for scientific projects' funding.
6. The candidate must have a very good command of English, confirmed by a certificate.
7. In addition, the candidate is required to be active at popularizing science and have confirmed organizational activities, in particular as a member of the conference organizing committees.

Candidates are asked to submit the following documents:

1. an application for employment as an assistant,
2. a copy of the master's degree diploma,
3. scientific curriculum vitae with a list of publications and conference reports,
4. Cambridge ESOL certificate (or other equivalent) confirming knowledge of English at B2 level or higher,
5. documented activity in applying for research projects' funding,
6. other documents confirming the candidate's qualifications, including organizational and popular science activities,
7. a certificate of lack of criminal record,
8. consent to the processing of personal data,
9. candidate's declaration that if employed as an assistant, the Institute of Horticulture will be her/his first place of employment.

Applications should be submitted by 31/12/2019 in person or by registered letter to the Department of Staff Affairs of the Institute of Horticulture, ul. Pomologiczna 18, 96-100 Skierniewice. The candidates will be notified by phone, e-mail or post about the competition date.
