

Vol. XVII(1) 2009

Effect of indolebutyric acid on root regeneration and seedling survival after transplanting of three *Pistacia* species

Mostafa Mobli, Bahram Baninasab

In vitro micropropagation of 'Khalas' date palm (*Phoenix dactylifera* L.), an important fruit plant

Junaid Aslam, Saeed Ahmed Khan

Shoot multiplication and plant regeneration of guava (*Psidium guajava* L.) from nodal explants of in vitro raised plantlets

Manoj Kumar Rai, Vijai Shanker Jaiswal, Uma Jaiswal

The usefulness of four rootstocks for the production of maiden peach trees

Sławomir Świerczyński, Aleksander Stachowiak

Effect of different tree training systems on growth and yielding of two apple cultivars

Krzysztof Rutkowski, Małgorzata Kantorowicz-Bąk, Eugeniusz Pacholak

Growth of peach trees on Pumiselect rootstock, in the first years after planting

Adam Szewczuk, Ewelina Gudarowska

Effect of organic fertilizers on susceptibility of potted durian seedlings to *Phytophthora* diseases

Muryati, Liza Octriana, Deni Emilda, Panca Jarot Santoso, Diah Sunarwati

Potassium effect on ion leakage, water usage, fruit yield and biomass production by strawberry plants grown under NaCl stress

Mehdi Khayyat, Mohammad Reza Vazifeshenas, Soheila Rajaei, Salma Jamalian

Influence of substrate on yield and chemical composition of highbush blueberry fruit cv. 'Sierra'

Ireneusz Ochmian, Józef Grajkowski, Katarzyna Skupień

Influence of ripening time on fruit chemical composition of two blue honeysuckle cultivars

Katarzyna Skupień, Ireneusz Ochmian, Józef Grajkowski

Effect of different sucrose and nitrogen levels in the medium on chlorophyll and anthocyanin content in *Clematis pitcheri* shoots cultured in vitro at different temperatures

Ludwika Kawa-Miszczak, Elżbieta Węgrzynowicz-Lesiak, Eleonora Gabryszewska, Marian Saniewski
