

Vol. XVII(2) 2009

Comparison of ELISA and RT-PCR assays for detection and identification of cucumber mosaic virus (CMV) isolates infecting horticultural crops in Poland.

Hanna Berniak, Tadeusz Malinowski, Maria Kamińska

The attempts to produce antiserum against apple stem pitting virus coat protein (ASPV CP) obtained in prokaryotic and eukaryotic expression systems.

Beata Komorowska, Tadeusz Malinowski

Molecular screening of apple (*Malus domestica*) cultivars and breeding clones for their resistance to fire blight.

Sylwia Keller-Przybyłkowicz, Mariusz Lewandowski, Małgorzata Korbin

The influence of canopy architecture on light interception and distribution in 'Sampion' apple trees.

Zbigniew Buler, Augustyn Mika

Suitability of different dwarfing rootstocks for 'Rubin' apple trees grown in fertile soil.

Cezary Piestrzeniewicz, Andrzej Sadowski, Romuald Dziuban

The usefulness of two rootstocks for some plum cultivars.

Sławomir Świerczyński, Aleksander Stachowiak

Results of growing three apple cultivars grafted on a number of Polish and English rootstocks and their subclones.

Alojzy Czynczyk, Paweł Bielicki, Barbara Bartosiewicz

The effect of mulch and mycorrhiza on fruit yield and size of three strawberry cultivars.

Mateusz Frąć, Paweł Michalski, Lidia Sas-Paszt

Identification and genetic diversity assessment of cherry cultivars and rootstocks using the ISSR-PCR technique.

Anna Lisek, Elżbieta Rozpara

Osmotic dehydration of pumpkin in starch syrup.

Agata Pękosławska, Andrzej Lenart

Antioxidant capacity, ascorbic acid and phenolics content in wild edible fruits.

Ewa Jabłońska-Ryś, Marta Zalewska-Korona, Janusz Kalbarczyk

Sea buckthorn - an innovative raw material for the fruit and vegetable processing industry.

Janusz Lipowski, Krystian Marszałek, Sylwia Skąpska

Mechanical and acoustic properties of dried apples.

Agata Marzec, Hanna Kowalska, Szymon Pasik

The growth, yielding and resistance to spring frost of nine sour cherry cultivars in central Poland.

Ewa Szpadzik, Martyna Matulka, Ewa Jadcuk-Tobjasz

Frost damage of buds on one-year-old shoots of wine and table grapevine cultivars in central Poland following the winter of 2008/2009.

Jerzy Lisek

Selected mechanical properties of osmotically dehydrated apples impregnated with calcium ions.

Hanna Kowalska, Agata Marzec, Andrzej Lenart

Mass and volume modeling of loquat (*Eriobotrya japonica* Lindl.) fruit based on physical characteristics.

Ali Shahi-Gharahlar, Ali Reza Yavari, Majid Khanali

Yielding of new dessert strawberry cultivars and their susceptibility to fungal diseases in Poland.

Agnieszka Masny, Edward Żurawicz

Phenotypic structure of *Archips podana* Scop. in the central part of Poland.

Andrej Feliksovich Safonkin, Zofia Pluciennik

The efficacy of some neonicotinoid and other new insecticides in the control of the strawberry root weevils (Cucurlionidae) on strawberry plantations in Poland.

Barbara H. Łabanowska

Mangosteen thrips: collection, identification and control.

Affandi, Deni Emilda

Turkish ornamental plants sector in the European Union screening process.

Murat Zencirkiran, İsmail Bülent Gürbüz
