

PUBLIKACJE NAUKOWE

Comparison of the profitability of fruit production for farms – belonging and not belonging to Producer Organizations. *Studia Negotia* 58(4): 109-117.

Brzozowski P., Zmarlicki K

2013

Negotia

profitability, fruit, PO's, farms

Consumer eating quality acceptance of new apple varieties in different European countries. *Food Quality and Preference* 30(2): 250-259

Bonany J., Buehler A., Carbó J., Codarin S., Donati F., Echeverria G., Egger S., Guerra W., Hilaire C., Höller I., Iglesias I., Jesionkowska K., Konopacka D., Kruczyńska D., Martinelli A., Pitiot C., Sansavini S., Stehr R., Schoorl F

2013

apple, varieties, consumer acceptance, quality parameters, european countries

Coragen 200 SC – selective insecticide for the control of codling moth (*Cydia pomonella* L.).

Integrated protection of fruit crops. International Organisation for Biological and Integrated Control – West Palaearctic Regional Section Bulletin 91: 169-171.

Pluciennik Z.

2013

Crop protection measures affecting post-harvest quality. Twinning Project JO 10/ENP-AP/AG

Meszka B., Malusà E

2013

The European Union SAAP programme for Jordan

Detection, isolation and preliminary characterization of bacteria contaminating plant tissue cultures. *Acta Agrobotanica* 66(4): 81-92.

Kałużna M., Mikiciński A., Sobiczewski P., Zawadzka M., Zenkteler E., Orlikowska T.

2013

DOI

bacterial contamination, plant tissue culture, bacteria detection, PCR, BIO-PCR

Detection of grapevine viruses in Poland. *Journal of Phytopathology*. 162 (5): 326-331.

Komorowska B., Berniak H., Golis T.

2013

DOI

detection, ELISA, grapevine viruses, Poland, RT-PCR

Detection of Narcissus latent virus isolates using one-step RT-PCR assay. Journal of Horticultural Research 21(1): 11-14.

Berniak H., Komorowska B., Sochacki D

2013

DOI

NLV, virus identification, RT-PCR, DAS-ELISA, narcissus cultivars

Detection of prunus necrotic ringspot virus in plant extracts with impedimetric immunosensor based on glassy carbon electrode. Electroanalysis 25(2): 433-438.

Jarocka U., Radecka H., Malinowski T., Michalczyk L., Radecki J.

2013

DOI

Prunus necrotic ringspot virus, glassy carbon electrodes, immunosensors, electrochemical impedance spectroscopy

Development of male sterile broccoli lines with *Raphanus sativus* cytoplasm and evaluation assessment of their value for breeding purposes. Journal of Horticultural Research 21(2): 101-107.

Kamiński P.

2013

DOI

broccoli (*Brassica oleracea* L. var. *italica* Plenck), cytoplasmic male sterility, morphological traits, self-compatibility, breeding, hybrids

Dietary fiber and cell wall polysaccharides from plum (*Prunus domestica* L.) fruit, juice and pomace: Comparison of composition and functional properties for three plum varieties. Food Research International 54(2): 1787-1794.

Kosmala M., Milala J., Kołodziejczyk K., Markowski J., Zbrzeźniak M., Renard M.G.C.

2013

DOI

pectin, hemicellulose, hydration, extraction, HPSEC, *Prunus domestica* L.
