

VOL.XIX(1) 2011

Use of the rep-PCR technique for differentiating isolates of rhizobacteria

Anna Lisek, Lidia Sas Paszt, Michał Oskiera, Paweł Trzciński, Aleksandra Bogumił, Agnieszka Kulisiewicz, Eligio Malusá

The influence of bioproducts on root growth and mycorrhizal occurrence in the rhizosphere of strawberry plants 'Elsanta'

Lidia Sas Paszt, Beata Sumorok, Eligio Malusá, Sławomir Głuszek, Edyta Derkowska

The effect of mycorrhization and mulching of apple trees 'Gold Milenium' and blackcurrant bushes 'Tiben' on the occurrence of arbuscular mycorrhizal fungi

Beata Sumorok, Lidia Sas Paszt, Sławomir Głuszek, Edyta Derkowska, Edward Żurawicz

Efficiency of fruitlet thinning in apple 'Gala Must' by use of metamitron and artificial shading

Alina Basak

Ethylene evolution intensity and apple fruit setting after thinning with NAA and ethephon

Aleksander Gonkiewicz

Chemical pear fruit thinning

Aleksander Gonkiewicz, Jan Błaszczyk, Alina Basak

Effect of tree training system on yield and fruit quality of sweet cherry 'Kordia'

Aleksander Gonkiewicz

Changes in physico-chemical properties, polyphenol compounds and antiradical activity during development and ripening of Maoluang (*Antidesma bunius* L. Spreng) fruits

Luchai Butkhup, Supachai Samappito

The aroma profile of apples as influenced by 1-MCP

Rajko Vidrih, Janez Hribar, Emil Zlatić

Colour development in the apple orchard

L.M.M. Tijskens, Tatjana Unuk, Stanislav Tojntko, Janez Hribar, Marjan Simčič

Biology of flowering and fruiting of sour cherry trees grown at high density

Augustyn Mika, Zbigniew Buler, Barbara Michalska

The response of five tidal swamp grown papaya cultivars from the collection of the Indonesian Tropical Fruit Research Institute (ITFRI) to phosphorus fertilization

Fitriana Nasution, Martias, Noflindawati, Tri Budiyanti

Postharvest quality of 'Glen Ample' raspberry as affected by storage temperature and modified atmosphere packaging

Kaja Mölder, Ulvi Moor, Tõnu Tõnutare, Priit Pöldma

Changes in apple fruit quality during a modified atmosphere storage

Pranas Viškelis, Marina Rubinskienė, Audrius Sasnauskas, Česlovas Bobina, Nomeda Kvikliene

Quality of fruit on the Polish market in the context of minimum standard requirements

Joanna Pawlak

Automatically controlled sprayer to implement spray drift reducing application strategies in orchards

Grzegorz Doruchowski, Waldemar Świechowski, Artur Godyn, Ryszard Holownicki

Effect of salicylic acid on antioxidant enzyme activity and petal senescence in 'Yellow Island' cut rose flowers

Somayeh Gerailoo, Mahmood Ghasemnezhad

Evaluation of growth and flowering of cultivars derived from the Pimpinellifolia (*Rosa pimpinellifolia* L.) growing in the Collection of Rose Cultivars in the Botanical Garden of the Polish Academy of Science in Powsin

Marta Joanna Monder
